

June2,2011

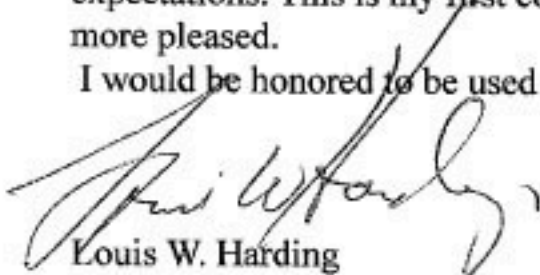

Letter of recommendation

We contracted with Perma-seal to resolve a water problem in our basement. On June1,2011 a crew arrived at our home at the appointed time and the foreman Hugo Rios introduced himself and explained what work his crew would be performing. He shared with us what the noise, dirt and dust that would be generated. He asked what other concerns we may have and any time if we have any questions or potential problems please let him be informed. John F. Gall the manager dropped by in the afternoon to see how the job was progressing and if we had any questions or concerns as how the solution was being accomplished.

Hugo and his team approached the job professionally and business like. Each member of his team were not only skilled as a craftsman and motivated worker, but performed with the team in a synergistic fashion.

The complete job and how the crew accomplished it greatly exceeded our expectations. This is my first contract with Perma-seal and I couldn't be more pleased.

I would be honored to be used as a reference .
