

Dealing with Perma-Seal was a great experience! From the small repair price to dealing with the people. Our consultant, Duane, answered every question, showed us videos of the product, and explained everything very clearly. He told us all the options + then told us what was right for us. ~~The~~

The crew that came out was very nice, didn't do anything different w/out asking and modified the job as needed to make it work for our situation. They worked hard all day + got done quickly! Awesome job!

Thanks!
